

baofeng

Flag format: `ctf{callsign_cityname}`

By listening to the audio we convert NATO phonetics:

Yankee → Y

Oscar → O

2 → 2

Tango → T

Sierra → S

Sierra → S

The line “My QTH is Kilo November 15, Kilo Sierra” reads as the Maidenhead locator KN15KS.

Just googling KN15KS we find Hunedoara.

ctf{yo2tss_hunedoara}
